## Back By Popular Demand!

Written in 1948, *1984* was George Orwell's chilling prophecy about the future. And while 1984 has come and gone, his dystopian vision of a government that will do anything to control the narrative is timelier than ever . . .

"The Party told you to reject the evidence of your eyes and ears. It was their final, most essential command." — George Orwell, *1984*
