

# General OneFile

Every year, the *Charleston Advisor* -- one of the library industry's most respected publications -- hands out awards for vendor databases and services. This year, two Gale products/platforms received awards -- our **PowerSearch** platform and **Gale Virtual Reference Library**. Both won the award for **Most Improved Product** for the second year in a row, reflecting Gale's commitment to innovation and response to consumer needs.

Now with over **11,500** titles, **General OneFile** provides your patrons with access to the largest collection of full text periodicals. This collection includes over **6,500** full text publications, over **124,000** *NPR* audio files complete with broadcast transcripts, all the *Fodor's* travel guides from 2006 and 2007, over **3,000** titles recommended by *Bowker's "Magazines for Libraries"*, as well as optional access to the **Gale Virtual Reference Library** containing over **1,600** volumes of reference content.

The screenshot displays the General OneFile search interface. At the top, there's a navigation bar with 'General OneFile' and links for 'Preferences', 'Change Databases', and 'Logout'. Below this is a search bar with 'global warming' entered and a 'GO' button. A sidebar on the left shows 'Narrow Results' by 'Subjects' with a list of categories like 'Global Warming(4571)', 'Climate Change(478)', etc. The main results area shows 'Results for Basic Search (KE (global warming))' with filters for 'Magazines (9688)', 'Academic Journals (5268)', 'Books (22)', 'News (18234)', and 'Multimedia (367)'. It includes options to 'limit to' full-text or with images, and a 'Sort by' dropdown set to 'Publication Date'. Two search results are visible, each with a 'Mark' checkbox and a 'Full-text' link.

Use the award-winning **PowerSearch** platform to search **General OneFile** with features including:

- Search Alerts
- "Did You Mean?"
- Enhanced Search Limiters
- Improved "How-To-Cite" Functionality
- "Search Within" Results
- Enhanced Navigation
- Enhanced Bookmarks
