SUBJECT: ESTABLISHMENT OF PERMANENT DIPLOMATIC RELATIONS BY YEMEN WITH OTHER COUNTRIES

RECD MAY 20

ACTION: NEA

INFO: DCI EUR OLI S/S-PR SY

Although the record included in the report of my mission to Yemen from April 8-15, 1950 is exceedingly complete, I do not find any reference to a somewhat lengthy exchange of views which I had with officials of the Yemen Government concerning the question of representation with the United States in relation to Yemeni exchange of representation with other countries. I feel it important to add this despatch, therefore, as a supplement.

I considered it highly advisable when discussing the question of the exchange of representatives to point out to the Yemen Government that since such exchange was designed for the promotion of the interests of both countries, the Yemen Government would be well advised in my opinion to proceed in a way which might not create any suspicion or resentment on the part of other neighboring countries or countries with which both Governments were on friendly relations. I mentioned by way of example that while the United States was highly desirous of strengthening its relations with Yemen and would welcome the exchange of representatives it would not serve the interests of either country if such exchange of representatives awakened a feeling of resentment on the part of other countries such as Egypt and Saudi Arabia, to cite two examples. I expressed the personal view that before exchange of representatives between Yemen and the United States, with residence in the respective countries, it might be advisable for Yemen to consider the exchange of representatives with Saudi Arabia and other friendly Arab states.
