

7 THINGS TO LOOK FOR IN CURRICULUM-ALIGNED CONTENT

Engage students with materials that support curriculum standards and achievement. Use this checklist to find quality instructional content for your classroom.

1 Is it Aligned to the Curriculum?

Ensure the material is directly linked to curriculum learning objectives to enhance student engagement with topics and comprehension of key concepts.

2 Is it Credible?

Confirm the material is accurate, up-to-date, and supported by reputable sources. Check to see if the content provides references and citations where appropriate.

3 Is it Age-Appropriate?

Make sure the material aligns with the age and developmental level of your students. Check for a grade or reading level.

4 Is it Accessible?

Check that the material is accessible to all students, including those with disabilities or special needs. Look for alternative formats or appropriate accommodations that enable accessibility for all, like translations and text-to-speech technology.

5 Is it Safe to Access?

Confirm the content is available on a resource that is safe for students and adheres to strict privacy guidelines. Look for a privacy policy that confirms student data is not collected.

6 Is it Culturally Sensitive?

Make sure the content promotes inclusivity and respect for diverse perspectives, cultures, and identities.

7 Is it Engaging?

Look for multimedia elements, interactive features, and varied instructional strategies you can use to engage students and enhance learning.
