

# ENSURE QUALITY & EQUITY FOR MARYLAND STUDENTS

## Provide instructional support with Gale In Context: For Educators

Prepare students for college, career, and life with engaging, high-quality instructional materials, including ready-to-use, culturally responsive and project-based-learning lesson plans that support all Maryland students.

To enrich student experiences and accelerate outcomes, schools must find ways to engage students, equip educators, and remove barriers to learning. Find the support your school community needs with the curriculum and instruction resource *Gale In Context: For Educators*. With relevant content delivered in a real-world way, vetted materials to personalize learning and create culturally responsive classrooms, and tools to increase access for all, *For Educators* helps you improve the quality of education for Maryland students.

### DEVELOP COLLEGE AND CAREER READINESS

*Gale In Context: For Educators* provides the resources necessary to help students acquire college and industry skills, such as **problem-solving, critical thinking,** and **digital citizenship**. Educators have ready-made lesson plans for each career cluster to directly support career and technical education (CTE).

### CULTIVATE ESSENTIAL LIFE SKILLS

Essential skills increase students' ability to cope with everyday challenges and benefit them academically, professionally, and socially. *Gale In Context: For Educators* includes lesson plans with content supporting the five core competencies established by the Collaborative for Academic, Social, and Emotional Learning (CASEL) and helps teachers integrate skill development into everyday learning.

### GET RESOURCES FOR STUDENT SUCCESS

Break down classroom barriers that get in the way of productive learning. Provide targeted support with resources like text to speech, translation into 50+ languages, visibility and readability features, and more.
