Building a quality research database collection is no easy task. How can you enhance your institution’s portfolio to meet a variety of research needs while staying within budget? With the Gale Access Program, you can give students, researchers, and instructors unlimited, simultaneous access to our most-used databases, eBooks, and primary sources across the curriculum.

**Top 5 Reasons to Diversify Your Databases with the Gale Access Program**

1. **Affordability**
   - Offer the largest package of primary & secondary sources available, at an affordable price that fits your academic library budget

2. **Accreditation**
   - Content covers key courses and majors to fulfill national, regional & disciplinary accreditation requirements

3. **Usage**
   - 353% Improvement in the number of products used by students & faculty
   - 207% Increase in retrievals after implementation*

4. **Integration**
   - Easily integrate databases into course syllabi, LMSs, LibGuides & discovery systems

5. **Interdisciplinarity**
   - Provide a wider range of subject matter in varying formats and meet the needs of faculty and students around issues related to diversity, equity, and inclusion, and other relevant topics

Gale’s proprietary databases, award-winning references, and one-of-a-kind primary sources come together in a multiyear subscription model to deliver a truly unique offering.

**Learn More**

*Average increases based on actual COUNTER usage data across more than 215 customers one year after implementing the Gale Access Program.
