Gale OneFile Periodical Collections

CONNECT RESEARCHERS TO THE WORLD

Gale, here for everyone.
**Platform Features & Tools**

**Gale OneFile Periodical Collections** provides what twenty-first century researchers expect: instant access to complete, up-to-date content on virtually any topic. With intuitive searching that mirrors everyday internet searches and easy-to-use features and tools, users are able to tap into quality sources when they need them.

**Integrated Collaboration Tools**
Easily access, share, and save content with G Suite for Education and Microsoft Office 365 tools.

**Language Translation**
Translate Gale content into 40 languages on demand; some include audio as well.

**Listen**
Make content more accessible with audio versions of any article, and download for anytime listening.

**Citation Tools**
Automatically generate APA, MLA, Chicago, and Harvard citations and export to EasyBib, NoodleTools, ProCite, and more.

**Notes & Highlights**
Select and highlight text, add notes, and export so users can keep just the content they need.

**Share Link**
Copy persistent URLs at the article level to embed in course syllabi, e-newsletters, LibGuides, etc.

**Workflows Tools**
Integrated workflow tools and search capabilities change how researchers discover information. Help users explore and analyze content with tools that naturally fit into their research workflow.

**LMS Integration**
Expand access and increase discovery at schools and academic institutions by allowing educators to access and embed Gale content within their learning management system (LMS).

**Smarter Search Results**
Provide important evaluative information to support successful user outcomes and help users discover relevant content.

**Single Sign-On**
Access with a single sign-on through popular services, like Google, Microsoft, ClassLink, and Clever.

**Power Search**
Allows you to combine your Gale database resources, including Gale ebooks, into a single, cross-searchable experience.

**Topic Finder**
By grouping commonly occurring themes, this tool reveals hidden connections between search terms—helping shape the research experience by integrating relevant information.
PERIODICAL RESOURCES FOR EVERY USER

GALE ACADEMIC ONEFILE

Connect learners to the information they’re looking for with tools that make discovery fast and easy. Our premier periodical resource, Gale Academic OneFile, provides millions of articles from over 19,000 scholarly journals and other authoritative sources—including thousands of podcasts and transcripts from NPR and CNN as well as videos from BBC Worldwide Learning.

Researchers are able to find accurate information and articles in both PDF and HTML formats with ease. This resource provides extensive coverage in key subject areas, such as biology, chemistry, criminal justice, economics, environmental science, history, marketing, political science, and psychology.

Gale Academic OneFile is strongly focused on the undergraduate researcher. Unique among competitors, this resource allows users to browse by discipline from the home page and contains peer-reviewed scholarly journal content indexed in Google Scholar.

GALE GENERAL ONEFILE

Gale General OneFile provides access to an unprecedented number of general reference magazines and key serials in a single resource. Users can rely on Gale General OneFile for instant access to nearly 14,000 periodicals, newspapers, reference books, and multimedia sources, along with over 200,000 images, 3,300 audio files, and thousands of videos. The database is particularly useful to users conducting general reference queries, business searches, and current event research. The addition of a browse-by-subject feature allows users to easily view content of interest on the most popular and most-searched topics within several distinct categories, including news and current events, health, and computers and technology.

GALE ONEFILE: NEWS

This innovative, full-text newspaper resource allows users to search articles instantly by title, headline, date, author, newspaper section, or other fields. Gale OneFile: News provides access to more than 3,000 major U.S. regional, national, and local newspapers as well as leading titles from around the world. It also includes thousands of images, radio and TV broadcasts, and transcripts.

"It’s all really about efficiency . . . Students want to find exactly what they need, as complete as possible, so they don’t feel like they’re wasting their time."

— Gale Academic OneFile User

GALE ACADEMIC ONEFILE SELECT

Covers everything from art and literature to economics and the sciences. This resource for academic research integrates the full text of publications from across the disciplines and includes vocational and technical titles used by community college students, filling a specific need for curriculum-oriented collections. Gale Academic OneFile Select provides indexing for more than 5,500 periodicals—over 3,600 of which are in full text, without any embargo. The combination of full-text scholarly journals and select general interest titles is ideal for smaller academic libraries.

GALE ONEFILE: INFORME ACADÉMICO

Meets the research needs of Spanish-speaking users with a wide range of full-text Spanish- and Portuguese-language scholarly journals and magazines both from and about Latin America. Gale OneFile: Informe Académico provides quality reference material—not simply translations of English-language materials—on an interface configured for Spanish speakers, allowing researchers to analyze topics and conduct research in Spanish.

GALE ONEFILE: HEALTH AND MEDICINE

Includes information created specifically for students, knowledgeable consumer health researchers, and healthcare professionals. This database is the perfect resource for up-to-date information on a complete range of health-care topics. With more than 3,100 embargo-free, full-text periodicals; reference books; pamphlets; and thousands of videos; it ensures that researchers receive current, scholarly, comprehensive answers to health-related questions.

GALE ONEFILE: HIGH SCHOOL EDITION

Provides access to age-appropriate, authoritative digital content for middle- and high-school students to use for classroom assignments. Learners can research magazines, journals, newspapers, and reference books covering a range of subjects—from science, history, and literature to political science, sports, and environmental studies.

Put the world’s leading journals and reference sources into the hands of your users. Our three most popular collections house the widest selection of resources for learners at every level.

Content features include full-text articles, careful editorial curation, a low-to-no embargo rate, and detailed manual indexing.
Gale OneFile: Agriculture
Provides more than 600 full-text covering agriculture and its related fields. Researchers can access current and authoritative periodical content and find the latest in agricultural research and practical aspects of farming to cutting-edge scientific research in horticulture. This collection contains over 30 Delmar titles and puts strong emphasis on titles covered in the Agricola database.

Gale OneFile: Business
Contains full-text coverage of all business disciplines, including accounting, economics, finance, marketing, management and strategy, and business theory and practice. Users will understand the activities of companies and industries through more than 4,000 leading business and trade publications, which are updated daily. Complementing this is a selection of international, U.S., and regional news publications.

Gale OneFile: Communications and Mass Media
Meets the needs of researchers with articles from over 450 titles covering all aspects of the communications field, including advertising, public relations, linguistics, and literature.

Gale OneFile: Computer Science
Provides access to leading business and technical publications in the computer science and information technology fields. It seeks to provide the best available full-text coverage of computer-related product introductions, evaluations, and reviews, and enhances the content of this resource. This database offers current and authoritative information, including usability, cataloging, circulation, business information, and more.

Gale OneFile: ECONOMICS AND THEORY
Offers in-depth emphasis on titles covered in the EconLit bibliographic index. With nearly 1,800 titles, this content is useful for starting a business, marketing a product, developing policy, analyzing trends, conducting economic models, investigating the future, researching rates, and more.

Gale OneFile: EDUCATOR’S REFERENCE COMPLETE
With more than 1,300 periodicals, this collection is a great resource for a variety of educators—from teachers to professionals in the electronics industries. It seeks to provide educators for teachers with current and relevant content on topics including civil rights, health, education, professional development, and entrepreneurship.

Gale OneFile: Entrepreneurship
Provides insights, trends, and success stories for business schools and entrepreneurs. Updated daily, this database contains more than 200 periodicals and full-text articles, including Entrepreneur, Sales & Marketing Management, Restaurant Business, Home & Garden Business, and more.

Gale OneFile: Food, Crops, and Environment
This collection contains over 30 Delmar titles and puts strong emphasis on titles covering all aspects of the agriculture field, including agriculture, biological science, horticulture, and more.

Gale OneFile: Global Journal of Entrepreneurship
This collection connects researchers to hundreds of thousands of updated articles from leading journals, including Claims Journal, Insurance Business, Pensions & Investments, Risk Management, and more.

Gale OneFile: Health and Safety
Addresses concerns over the protection of assets, physical or intellectual, ranging from the individual property owner to multinational corporations. This collection connects researchers to more than 300 major journals. Updated daily, this resource supports a broad range of topics from legal theories to social issues.

Gale OneFile: Law and Business
Provides access to authoritative periodical content covering such topics as torts and competition, corporate and regulatory law. Updated daily, this database provides access to full-text articles from more than 2,000 major publications, including Bar Association journals, specialty publications, and more.

Gale OneFile: Literature and Language
Contains scholarly journals and magazines that can be used by novice historians as well as advanced academic researchers. Updated daily, this resource offers full coverage of events in U.S. history and scholarly work being established in the field.

Gale OneFile: Psychology
Covers topics and subfields of psychology: abnormal, biological, cognitive, comparative, developmental, personality, quantitative, social, and all areas of applied psychology. Researchers, psychologists, counselors, and behavioral scientists will discover relevant information from the thoughts, views, discoveries, and reports found in this comprehensive collection.

Gale OneFile: Religion and Philosophy
Covers topics and subfields of religion and philosophy, including Christianity, Judaism, Islam, and more. Updated daily, this resource supports a broad range of topics from historical theories to spiritual issues.

Gale OneFile: Social Sciences
Provides access to leading business and technical publication in the social sciences fields. This collection is useful for starting a business, marketing a product, developing policy, analyzing trends, conducting economic models, investigating the future, researching rates, and more.

Gale OneFile: Terrorism and War
Provides access to full-text articles from over 300 major publications, including Homeland Security Today, Global Terrorism Monitor, and more.

Gale OneFile: Urban Studies
Contains valuable content for library science students, information science students, technology professionals, and others. It is updated daily with articles covering all aspects of managing and maintaining information and technology, including usability, cataloging, circulation, business information, and more.

Gale OneFile: War and Terrorism
Contains full-text articles from over 300 major publications, including Homeland Security Today, Global Terrorism Monitor, and more.

Gale OneFile: World History
Provides access to scholarly journals and magazines for use by novice historians and advanced academic researchers. This database offers balanced coverage of events in world history and scholarly work being established in the field.

Gale OneFile: 20th-Century America
Covers the fields of physical therapy, physical fitness, and sports medicine. This database offers a wide spectrum of information, including recent trend observations, experimental research, and more.

Gale OneFile: Business and Economics
Contains valuable content for library science students, information science students, technology professionals, and others. This is a daily updated database that covers all aspects of managing and maintaining information and technology, including usability, cataloging, circulation, business information, and more.

Gale OneFile: Criminal Justice
Informs the research process for students, professionals, researchers who are studying law, law enforcement, or terrorism; training for paralegal services; preparing for a career in homeland security; delving into forensic science; investigating and solving crime scenes; developing policy; going to court; writing社会责任 and much more. This collection makes research easy by bringing together information from nearly 800 journals.

Gale OneFile: Dental Arts
Offers a variety of information from over 450 titles covering all aspects of the dental field, including dental hygiene, patient care, professional development, and more.

Gale OneFile: Entertainment
This database provides access to more than 600 periodicals, including industry-specific publications, trade journals, and more.

Gale OneFile: Gardening and Horticulture
Focuses on the practical aspects and the scientific theory of horticulture studies. This database provides access to titles covering all aspects of the gardening field, including horticulture, plant science, and more.

Gale OneFile: Gender Studies
Provides balanced coverage of this significant aspect of culture and society. This database includes over 450 titles covering all aspects of gender studies, family and marital issues, and more.
