INSPIRE LEARNERS TO BE ACHIEVERS
Gale’s In Context Suite

DRAW STUDENTS INTO SUBJECT MATTER MORE READILY
Gale’s *In Context* suite combines easily searchable, mobile-responsive functionality with authoritative and current digital content that spans core subjects and develops future-ready skills. With an intuitive interface and a user experience that matches other Gale products, researchers spend more time getting the content they need and less time learning navigation and tools. Each subject-specific resource uses eye-catching topic overview pages to bring together curriculum-aligned nonfiction materials in a variety of digital formats. Users can search articles, videos, charts, images, infographics, and more to keep them engaged at school, at home, or on the go.

“Students are required to provide a variety of sources for research projects – a book source, newspaper article, journal article – and they like the portals because they separate all of the different resources for them.”

–Teacher/Librarian, Glenbrook South High School (IL)

“Everything is there! It is one-stop shopping, and everything is broken down into really obvious containers.”

Opposing Viewpoints In Context

This cross-curricular product covers today’s hottest social issues and supports science, social studies, current events, and language arts classes. Informed, differing views help learners develop critical thinking skills and draw their own conclusions. More than 20,000 pro/con viewpoints and 19,000+ reference articles are included, making it a rich resource for debaters. By downloading the Opposing Viewpoints In Context (Beta) extension from the Chrome Web Store, students receive instant results with a single Google search.

Research In Context

Created specifically for middle school students, this resource is designed to bridge the gap between Kids InfoBits for elementary school students and the subject-specific Gale In Context family. Categories cover the most studied topics ranging from cultures and government to history and literature, all in one interface that combines a visual design with high-quality content and a user-focused tool set. Research In Context also contains national and state curriculum standards for grades 6-12 in language arts, social studies, and science.

Science In Context

“Children Attend the Obamas’ Welcoming Ceremony for Indian Prime Minister Singh in Washington.” UPI Photo Collection, 2009.
World History In Context reaches back to the ancient world and forward to today’s headlines to provide a chronicle of the great cultures and societies that have shaped history. Rare primary sources, reliable reference, and multi-media content help students gain context on a wide range of topics within this vast subject. World History In Context is aligned with state and national curriculum standards.

Student Resources In Context

Designed to reinforce the development of skills such as critical thinking, this product offers cross-curricular content aligned to national standards and Common Core State Standards. Student Resources In Context includes more than 150 reference publications, full-text newspapers and periodicals, maps, hundreds of thousands of images, videos, and audio selections, as well as archival materials from well-known sources like The Economist, The New York Times, National Geographic, Newsweek, Popular Science, Smithsonian, and more.

U.S. History In Context

Offering a complete overview of our nation’s past, U.S. History In Context covers the most significant people, events, and topics in U.S. history. Comprehensive, contextual, media-rich information supports the development of critical thinking and information literacy skills. Content includes major reference works, millions of news and periodical articles, and most significantly, more than 5,000 rare and vital primary source documents (from slave journals to presidential papers). U.S. History In Context is aligned with state and national curriculum standards, and interlinks with Smithsonian Primary Sources In U.S. History.
