Gale Periodical Collections

CONNECT RESEARCHERS TO THE WORLD
**PLATFORM FEATURES & TOOLS**

**Gale Periodical Collections** provides what 21st-century researchers expect: instant access to complete, up-to-date content on virtually any topic. With intuitive searching that mirrors everyday internet searches and easy-to-use features and tools, users are able to tap into quality sources when they need them.

**COLLABORATION TOOLS**
Integrated Google and Microsoft tools enable users to share, save, and download content—including highlights and notes.

**SHAREABLE BOOKMARKS**
Bookmarked links never change and are shareable to non-users. Easily embed content on your website or in programming materials.

**READSPEAKER TEXT-TO-SPEECH TECHNOLOGY**
Make resources more accessible. Audio files can be downloaded and saved to any mobile device.

**COLLABORATION TOOLS**
Integrated G Suite for Education and Microsoft Office 365 tools enable users to share, save, and download content—including highlights and notes.

**SHAREABLE BOOKMARKS**
Bookmarked links never change and are shareable to non-users. Easily embed content on your website or in programming materials.

**ON-DEMAND TRANSLATION**
Product interface and content can be translated into numerous languages for easier comprehension. Articles can be translated into 40 languages, while the interface and read-aloud feature can be translated into more than 20 languages.

**CITATION TOOLS**
Integrated directly into the user’s workflow, formatted citations can be easily imported from single or multiple documents to services like EasyBib or NoodleTools. MLA, APA, and Chicago-style citations are supported.

**POWERSEARCH**
Allows you to combine your Gale database resources, including GVRL eBooks, into a single cross-searchable experience.

**TOPIC FINDER**
By grouping commonly occurring themes, this tool reveals hidden connections between search terms—helping shape the research experience by integrating relevant information.

**WORKFLOW TOOLS**
Integrated workflow tools and search capabilities change how researchers discover information. Help users explore and analyze content with tools that naturally fit into their research workflow.

**LMS INTEGRATION**
Incorporate periodicals into your learning management system to expand access and increase discovery from within the classroom. Optimized integration with popular providers like Canvas and Schoology allows for embedding links or documents directly into assignments, discussions, and more.

**INTERLINK**
Provides a better cross-search experience by building a web of connections across Gale resources via unique subject indexing, helping researchers find the content they need, when they need it, without having to know the specific resource in which to find it.

**TOPIC FINDER**
By grouping commonly occurring themes, this tool reveals hidden connections between search terms—helping shape the research experience by integrating relevant information.

**OPTIMIZED SEARCH RESULTS**
Make content easy to find via detailed indexing results—ranking algorithms, discovery services, MARC records, and more.

**SINGLE SIGN-ON**
Access with a single sign-on through popular services like Google, Microsoft, ClassLink, and Clever.
PERIODICAL RESOURCES FOR EVERY USER

ACADEMIC ONEFILE
Connect learners to the information they’re looking for with tools that make discovery fast and easy. Our premier periodical resource, Academic OneFile, provides millions of articles from over 9,000 scholarly journals and other authoritative sources—including thousands of podcasts and transcripts from NPR and CNN as well as videos from BBC Worldwide Learning.

Researchers are able to find accurate information and articles in both PDF and HTML formats with ease. This resource provides extensive coverage in key subject areas, such as biology, chemistry, criminal justice, economics, environmental science, history, marketing, political science, and psychology.

Academic OneFile is strongly focused on the undergraduate researcher. Unique among competitors, this resource allows users to browse by discipline from the home page and contains peer-reviewed scholarly journal content indexed in Google Scholar.

"It's all really about efficiency ... Students want to find exactly what they need, as complete as possible, so they don't feel like they're wasting their time."  
Academic OneFile User

GENERAL ONEFILE
General OneFile provides access to an unprecedented number of general reference magazines and key serials in a single resource. Users can rely on General OneFile for instant access to more than 14,000 periodicals, newspapers, reference books, and multimedia sources, along with over 163,000 images, 4,600 audio files, and 1.3 million videos. The database is particularly useful to users conducting general reference queries, business searches, and current event research. The addition of a browse-by-subject feature allows users to easily view content of interest on the most popular and most-searched topics within several distinct categories, including news and current events, health, and computers and technology.

INFOTRAC NEWSSTAND
This innovative full-text newspaper resource allows users to search articles instantly by title, headline, date, author, newspaper section, or other fields. InfoTrac Newsstand provides access to more than 3,000 major U.S. regional, national, and local newspapers as well as leading titles from around the world. It also includes thousands of images, radio, and TV broadcasts and transcripts.

EXPANDED ACADEMIC ASAP
Covers everything from art and literature to economics and the sciences. This resource for academic research integrates the full text of publications from across the disciplines and includes vocational/technical titles used by community college students, filling a specific need for curriculum-oriented collections. Expanded Academic ASAP provides indexing for more than 6,000 periodicals—more than 3,400 of which are in full text without any embargo. The combination of full-text scholarly journals and select general interest titles, for smaller academic libraries, is ideal.

INFORME ACADÉMICO
Meets the research needs of Spanish-speaking users with a wide range of full-text Spanish- and Portuguese-language scholarly journals and magazines both from and about Latin America. Informe Académico provides quality reference material—not simply translations of English-language materials—on an interface configured for Spanish speakers, allowing researchers to analyze topics and conduct research in Spanish.

INFOTRAC STUDENT EDITION
Provides access to age-appropriate, authoritative digital content for middle- and high-school students to use for classroom assignments. Learners can research magazines, journals, newspapers, and reference books covering a range of subjects—from science, history, and literature to political science, sports, and environmental studies.

"It's all really about efficiency ... Students want to find exactly what they need, as complete as possible, so they don't feel like they're wasting their time."
