

# PARTNERS IN LEARNING FOR ALL

We believe in the power and joy of learning. Because student success begins with educator success, Gale provides digital instructional materials that make it easier to meet all students where they are. At the same time, Gale's resources enable educators to grow professionally and prioritize their own self-care. Today, this includes helping districts tap into pandemic relief funds with proven resources to **streamline curriculum and instruction planning, engage students, strengthen professional learning, and support mental health.** Together, we can foster an environment where schools and students are encouraged to thrive, not just survive.
