The Listener
Historical Archive 1929-1991

Number of articles
Over 226,000
One of the most influential culture, media and politics publications to emerge in the 20th century, The Listener was a weekly periodical established by the BBC, to aid its mission to inform, educate and entertain the general public. Unlike rival publications with party political leanings, The Listener provided a balanced overview, and was always internationalist in its worldview.
