Number of pages

Over 3.2 million

This fully searchable digital archive provides access to European and British periodicals and American monographs from renowned sources. Collections include Natural History (500,000 pages of monographs from the Huntington Library); The Rise of Public Health in England and Wales (300,000 manuscript pages from the National Archives in England); and Academies of Science Publications. The diversity of coverage ensures an expansive, integrated, global view of science and technology from a critical era of scientific development.
