Take an Integrative Approach to Legal History

With nine distinct collections, the Making of Modern Law (MOML) series covers nearly every aspect of American and British law and enables in-depth research on the legal traditions of Europe, Latin America, Asia, and more classic and contemporary jurisdictions.

Encompassing a range of analytical, theoretical, and practical literature, these archives support and complement the study of law by providing valuable resources from the most influential writers throughout history. Combined with innovative tools on the Gale Primary Sources platform to make quality research easy, researchers are empowered with Making of Modern Law to reach insights not previously possible.
Gale Primary Sources
Start at the source.

GALE PRIMARY SOURCES PLATFORM

Offering an integrated research experience, Gale Primary Sources unifies extensive digital archives onto a single platform and enables users to make research connections like never before.

No other publisher offers this unmatched combination of unique, rich, full-text primary source content, dependable metadata, and intuitive subject indexing—all enriched by workflow and analytical technology that breathes new life into the study of law and the humanities.

The Gale Primary Sources platform enables researchers to:

• access multiple Making of Modern Law collections simultaneously
• uncover new connections through term cluster, term frequency, and search assist tools
• add new context by cross-searching Making of Modern Law with other primary source collections

EXPLORE THE MAKING OF MODERN LAW COLLECTIONS
A comprehensive library of U.S. and British law, this historical resource opens up a wealth of previously inaccessible sources to scholars and students. It covers a watershed period of legal development and is the world’s most comprehensive full-text collection of Anglo-American legal treatises.

The latest in the *Making of Modern Law* series, featuring documents from across the history of the American Civil Liberties Union, this archive offers valuable insight into the civil battles of the twentieth century—and straight from the organization that was at the center of the most contentious issues. Researchers can dive into debates on race, gender, popular protest, the role of police, and the role of government on both national and local levels.

Researchers will find coverage of the most-studied cases, many of which resulted in landmark decisions. This collection provides transcripts, applications for review, motions, petitions, and other official documents brought before the nation’s highest court, including information from cases that were denied certiorari.

A comprehensive library of U.S. and British law, this historical resource opens up a wealth of previously inaccessible sources to scholars and students. It covers a watershed period of legal development and is the world’s most comprehensive full-text collection of Anglo-American legal treatises.

Primary Sources II, 1763-1970

Access essential documents that tell the story of three centuries of American legal history. Comprised of state codes, constitutional conventions and compilations, and municipal codes, this collection supports scholarly research in nearly every aspect of American legal development into the late twentieth century.

Trials, 1600-1926

Documenting the courtroom dramas that rocked America and the British Empire, this archive provides unofficially published accounts of trials; official trial documents, briefs, and arguments; and official records of legislative proceedings, administrative proceedings, and arbitrations. It’s the most complete full-text collection of Anglo-American trials.

Primary Sources, 1620-1926

This virtual goldmine of information for researchers of American legal history contains published records of the American colonies, documents published by state constitutional conventions, city and state codes, law dictionaries, and more.
Legal historians need superseded codes in an easy-to-find online form—and Foreign Primary Sources offers libraries the tools to access them. This archive complements the collection of treatises found in Foreign, Comparative, and International Law, 1600-1926 while providing sources on the interpretive analysis of codes, the “primary sources” of law.

Easily explore four centuries of superseded legal codes, statutory materials, and code-related commentaries from around the world. With documents from southern Europe, Latin America, Canada, Australia, India, and elsewhere, including Roman and canon law, this resource contains over 1,500 titles on diverse jurisdictions.

Study treatises and a range of other legal documents from the nineteenth and twentieth centuries, several hundred classics since the seventeenth century, and book sources that compare legal systems across the world. This archive collects them all in one place and features the work of some of the great legal theorists, including Gentili, Selden, Zouche, and more. Explore the roots of English common law in the recesses of European history, with access even to texts on Ancient Roman, Jewish, and Islamic law.
